About your itinerary
This map is designed to be used along with the itinerary we provided you with during your 4WD safety briefing.

Please use and follow your itinerary to maximise your leisure time and get the best of what Fraser has to offer! (and do not risk losing your bond)
The itinerary is here to HELP you! We've done the work for you ahead of your trip to organise your Fraser adventure the best. We have combined in : your barge departure and return times, the constraints from the tides and weather, the places you are allowed to go to in a hired 4WD, the places you are staying at night and our knowledge of the Island to help you discover the most in the time you have on the beautiful Fraser!
Some places aren't worth the time/risks to get bogged when you only have a little time ahead of you. Fraser is a remote location and lots of the tracks are not maintained. Your itinerary will take you to the highlights of Fraser Island, enjoy your trip! :)
